About Our Company

Apexis Risk Innovation Group (ARIG) is a global leader and Caribbean-based provider with international experience in Industrial Safety, Emergency Response, Crisis, Risk, Cyber and Business Continuity Management and Training. With decades of combined leadership experience across diverse sectors and regions, ARIG applies internationally recognised standards and proven methodologies of excellence in safety, resilience, and innovation.

Our proven track record in designing and implementing tailored safety, risk management, and emergency preparedness solutions has enabled organizations in high-stakes industries to operate with confidence and continuity.

This depth of expertise and commitment to excellence sets us apart in our industry, as we continue to cultivate strong safety cultures,

drive operational performance, and build workforce capacity — strengthening businesses, communities, and nations through resilience.

Our strategic integration with the Texas A&M University System-Engineering Extension Service (TEEX) provides a unique opportunity to deliver best-in-class practical solutions and internationally accredited certifications. TEEX accreditation strengthens training quality and credibility, helping organisations improve competence and performance outcomes.

We ensure the highest standards in meeting the demands of today's industries, supporting safety enhancement, risk mitigation and the development of critical resources that are well-equipped and ready for any foreseeable emergency that may arise within the business and the industrial space.

Investing in People.
Strengthening Systems.
Protecting the Nation

Save lives. Protect assets.
Reduce downtime. Build
national capability.

Vision

To set global benchmarks in safety, risk management and emergency response, contributing to safer, healthier and environmentally friendly workplaces and communities worldwide.

To embody innovation, resilience and sustainability, positioning our company for continuous growth and applying strategic foresight to support operational excellence. We are committed to equipping our clients with critical competencies to save lives, protect assets, and renew the environment with minimal operational disruptions and maximum impact.

Mission

Guiding principles

- Safety
- Accountability
- Integrity

KEY HIGHLIGHTS

Global Leader

TEEX is a global authority and recognized leader in emergency response, workforce development and technical assistance. Major programs include Fire and Emergency Services, Infrastructure and Safety, Law Enforcement and Protective Services, and Business and Cyber Solutions.

Practical Solutions

Designs and develops safety and emergency curricula and tailored practical solutions, serving more than 225,000 individuals each year from all 50 states, five U.S. territories, the District of Columbia, and 124 countries.

Industries Served

Industries served span Public Utilities, National Security, Oil and Gas, Manufacturing, Construction, Hospitality and every other industry where safety and well-being is a priority with a focus on prevention and response.

Research & Innovation

ARIG has access to advanced technical and training resources ensuring that updated standards and technologies are employed to the benefit of partnering organisations, clients, and stakeholders.

Served

Fire and Emergency Services

TEEX provides training in industrial and municipal firefighting, community preparedness and emergency response, urban search and rescue, hazardous materials, oil spill response and EMS.

Infrastructure and Safety

Infrastructure must be able to support the exponential growth of US cities. TEEX trains personnel in transportation and highway safety, environmental health and safety and utilities such as water, electricity and gas and supports municipalities who need assistance in these areas.

Law Enforcement and Protective Services

TEEX trains law enforcement personnel in corrections, forensics and investigations, explosives and ordnance, motorcycle operations, sports and special events management and school safety.

Business and Cyber Solutions

Cyber threats continue to increase, and our services are tailored to help any municipality or organization build and improve cyber resiliency. TEEX has also developed a Cyber Training and Exercise Range to simulate cyberattacks for training purposes.

National Emergency Response and Recovery Training Center (NERRTC)

NERRTC, a founding member of the National Domestic Preparedness Consortium and funded by DHS/FEMA, provides local, state, tribal and territorial jurisdictions with scenario-driven leadership training and technical assistance. Since 1998, NERRTC has provided training to more than 995,000 responders in all U.S. states and territories.

Disaster Response Teams

Texas A&M Task Force 1 (TX-TF1) is a search and rescue team that provides emergency response personnel and resources during disasters. Texas A&M Public Works Response Team (TX-PWRT) includes public works professionals and equipment that restore public works such as water, gas and electricity after a disaster. Both of these response teams are supported by TEEX.

TEAM EXPERIENCE

Over three decades of global experience in emergency management and a solid foundation in risk management, regulatory compliance, and safety protocol development.

Team experience includes work across the United States, the Middle East and the Caribbean, representing key industries such as oil and gas, chemicals, construction, pharmaceuticals, maritime, and defense.

Our credibility is built on a consistent record of performance and trust across these critical sectors.
